

# Everyone Works Wiser with ActivTrak

## Using data and insights to develop healthy work habits and optimize productivity

### Employees

- Improve focus time and productivity
- Minimize interruptions and distractions
- Maintain personal well-being and balance
- Understand contribution to company goals

### Managers

- Keep a pulse on employee engagement
- Identify signs of burnout and fatigue
- Ensure successful onboarding of new hires
- Easily identify training opportunities

### Leaders

- Implement a data-driven workforce strategy
- Promote a culture of continuous improvement
- Measure productivity and drive positive change
- Proactively navigate risk while promoting trust and transparency

This is a great way to keep remote or hybrid teams connected and be able to identify in advance potential burnout or change in behaviors that can start a proactive, strategic conversation

— Executive in HR, IT & Services Company

## Beyond the individual, departments win too

### HR

- Measure employee engagement
- Develop and prepare people for success
- Boost employee retention
- Ensure strategic workforce planning

### Operations

- Enable asynchronous work
- Identify process bottlenecks
- Understand performance baselines
- Measure and report on productivity trends and utilization levels

### IT

- Identify potential security gaps
- Enforce IT policies
- Understand technology usage and adoption
- Enable new and flexible ways to work

ActivTrak helps us build trust, create transparency and accountability, and understand who is doing really well and how we can help others model them.

— Chief Administrative Officer, Insurance Broker
